

Fraxinus pennsylvanica 'Johnson' P.P. No. 9136 (Zone 3)

Leprechaun™ Ash

An interesting dwarf form of Green Ash. It forms a very compact head that becomes rounded with maturity.

Height: 18' **Spread:** 16' • **Shape:** Dense, compact, round
Foliage: Medium green, small • **Fall Color:** Yellow

Fraxinus pennsylvanica 'Patmore' P.P. No. 4684

Patmore Ash

(Zone 2)

Patmore is probably the best Green Ash cultivar introduced to date. It has dark green, glossy foliage and a well behaved form, intermediate in shape between Summit and Marshall.

Extremely hardy and reported to be seedless.

Height: 45' **Spread:** 35' • **Hardiness:** -45°F
Shape: Symmetrical upright branches, oval head
Foliage: Dark green, glossy • **Fall Color:** Yellow

Ginkgo (Maidenhair Tree)

Ginkgo biloba 'Magyar'

(Zone 4)

Magyar Ginkgo

A male selection of this slow growing asymmetrical tree. Exceptionally pest and disease free. Fan shaped leaves turn a beautiful golden yellow in fall.

Height: 50'-80' **Spread:** 30'-40' • **Shape:** Upright branching
Foliage: Bright green • **Fall Color:** Bright golden yellow

Ginkgo biloba 'Princeton Sentry'

(Zone 4)

Princeton Sentry Ginkgo

This slow growing male cultivar has a uniformly regular shape and is pest and disease free. Spectacular golden color in fall.

Height: 60-70' **Spread:** 20-30' • **Shape:** Upright columnar
Foliage: Dark green • **Fall Color:** Golden yellow

Gleditsia (Honeylocust)

Gleditsia triacanthos 'Emerald Cascade'

(Zone 4)

Emerald Cascade Weeping Honeylocust

A striking, weeping selection of honeylocust. Features rich, dark emerald green foliage gracefully held on arching branches. Thornless.

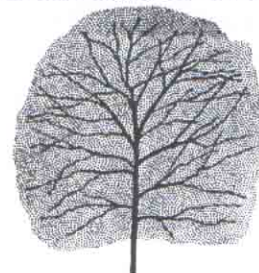

Height: 16' **Spread:** 16' • **Shape:** Weeping, pendulant branching
Foliage: Dark green • **Fall Color:** Butter yellow

Gleditsia triacanthos 'Christie' P.P. No. 3096

(Zone 4)

Halka™ Honeylocust

Halka is rapidly becoming one of the favorite Honeylocust cultivars because of its vigorous growth, heavy caliper and symmetrical, full crown. Occasionally reported to produce seeds.

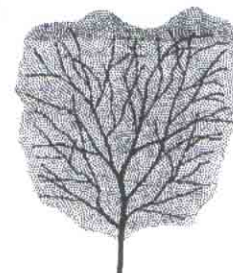

Height: 40' **Spread:** 40' • **Hardiness:** -30°F
Shape: Widely oval to round • **Foliage:** Fine textured, medium green • **Fall Color:** Yellowish

Gleditsia triacanthos 'Shademaster' P.P. No. 1515

Shademaster Honeylocust

(Zone 4)

Shademaster features upright ascending then spreading branches. An excellent street tree, its upright branch structure lends itself to pruning for traffic clearance.

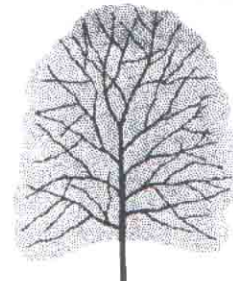

Height: 45' **Spread:** 35' • **Hardiness:** -25°F
Shape: Vase shaped to rectangular in outline
Foliage: Fine textured, medium green • **Fall Color:** Yellow

Gleditsia triacanthos 'Skycole'®

(Zone 4)

Skyline Honeylocust

The most widely used Honeylocust cultivar. Its upright spreading branch angle, well behaved form and environmental tolerance make Skyline an ideal street tree in many situations.

Height: 45' **Spread:** 35' • **Hardiness:** -30°F
Shape: Broadly pyramidal • **Foliage:** Fine textured, medium green • **Fall Color:** Golden
